NUMBER 91

THIRTEENTH YEAR

BRYAN TEXAS, SUNDAY MORNING, MARCH 22, 1908.

Two Bowser all-steel self-measuring oil tanks of above style, which is the very newest thing of the kind to be had, have recently been installed by Howell & Newton. They are the most accurate and labor saving oil measuring device on the market. They guarantee absolutely correct measurement and great speed and cleanliness in handling oil and eliminate all chances for dust and grit to get into it.

Foster's Weather Bulletin

(Copyrighted 1908, by W. T. Foster.) Washington, D. C., March 21.—Last bulletin gave forecasts of disturbance to cross continent 19 to 22, warm wave 18 to 22, cool wave 21 to 25. Next disturbance will reach Pacific coast about 24, cross Pacific slope by close of 25, great central valleys 26 to 28, eastern states 29. Warm wave will cross Pacific slope about 24, great central valleys 25, eastern states 28. Cool wave will cross Pacific slope about 27, great central valleys 29, eastern states 31.

During the passage of this disturbance across the continent from the Pacific to the Atlantic the temperatures will average lower than usual and rainfall will be above average of the month, particularly in the eastern states and the east of Rockies north west.

This disturbance will follow a northern cold wave and from about four days before the low reaches you to about four days after it passes you a great rise in temperature may be ex-

pected. For meridian 90 this great rise will occur from 23 to 31; earlier west of that line, later east of it.

Immediately following 21 will come a great fall in temperatures accompanied by rains south and snows in the far north. This cold wave will be particularly severe in Maryland, District of Columbia and the middle Atlantic States where tender plants are liable to damage.

I am expecting April to be a warm sluggish month in all of the United States south of parallel 40 and in Mexico. Not so warm in Canada, Montana, Oregon and Washington. The weather of April will be unimportant as to storms; not enough danger in it to awaken the sleepers. But it will be an ideal month for the farmer, planter, truck gardener and ice-man. After the rough weather of March is all in nature appears to have planned a rest for man and a paradise for the vegetable world. This condition, however, will not continue throughout the season.

NEWS FORECAST COMING WEEK

Washington, D. C., March 21.—In addition to the routine of Congress, political developments abroad and in the Far East and the target practice of the American fleet at Magdalena Bay, a number of other interesting events will have a place in the news of the coming week.

Presidential politics will swing along at a fast clip. Conventions to name delegates to the Chicago or Denver conventions will be held in a number of States. Illinois Republicans will meet in State convention at Springfield and instruct for Cannon. The Tennessee Republican convention will meet in Nashville and is expected to endorse the Taft candidacy. No instructions, are expected from the Rhode Island Republican convention which is to meet in Providence.

Bryan will have things pretty much his own way with the Democratic conventions. The North Dakota State convention will be held at Grand Forks, the Iowa convention at Cedar Rapids and the Indiana convention at Indianapolis. It is expected that Bryan's sentiment will dominate each of these gatherings.

Mr. Bryan will begin a busy week by entertaining the Populist and Democratic editors of Nebraska next Monday. Secretary Taft will begin the week by addressing the Chamber of Commerce at Trenton, N. J., Monday night and end it Saturday night with a speech before the Chicago Commercial Club.

The Knickerbocker Trust Company, the first of the big New York banking institutions to close its doors during the recent panic, will reopen for business Thursday. Other events of the week that will attract more or less attention will be the opening of the second batch of alleged graft trials at Harrisburg, Pa., and the consecration of the Rev. Henry D. Robinson, D. D. to the bishopric of Nevada, which will take place Wednesday at Racine, Wis.

DUKE DEPARTS.

Courtenance Did Not Indicate He Was Jilted.

New York, March 21.—Duke of Abruzzi, cousin of the king of Italy, who is reported to be engaged to marry Miss Katherine Elkins, daughter of the senator, sailed for Europe Saturday on the steamer Lusitania. Up to the hour of his sailing the duke declined to affirm or deny the reported engagement, but his demeanor was regarded by the reporters who gathered at the steamship pier as not that of a man who had failed in an important mission. The duke registered on the ship's passenger list as "Luigi Sarto." He boarded the steamer early and was accompanied to the dock by an attaché of the Italian legation at Washington, and by secret service men.

To reporters he said: "I am very sorry that I have no interview to give out, but come and see me at 8 o'clock."

"But the ship sails at that hour," said one of the newspaper men.

"Yes, I know it. I stayed up late to escape this. Everything is all right. Miss Elkins' family refrained from making any public statement and an erroneous construction has been placed upon their silence."

It is understood that the duke will disembark at Liverpool and hasten to Rome.

MILLS TO CURTAIL.

Several Close All Coming Work and Also Alternate Weeks.

Fall River, Mass., March 21.—Simultaneously with a drop of a quarter of a cent in the price of print cloth, notices were posted in the seven mills of the Fall River company, Borden of New York, announcing that those plants would be closed all the next coming weeks until four weeks' curtailment has been completed.

The immense plant produces 80,000 pieces of print cloth a week and employs 5,000 operatives. The American Print works has 7,500 hands and a capacity of 120,000 pieces weekly. They are the largest producers of printed fabrics in the United States.

The Daily Eagle

Entered at the Postoffice in Bryan, Texas, as second class matter.

BY CARNES & WALLACE
ANNOUNCEMENTS.

The Eagle is authorized to announce the following candidates for the offices indicated subject to the Democratic Primaries:

RUFUS HARDY (Re-election).

For Congress Sixth District:

BRYAN, TEXAS, MARCH 22, 1908.

The Panama canal is a demonstration that faith can move mountains with the help of money.

The best proposition as a trade getter is good public roads coming into a town from every direction. Business moves along the lines of least resistance.

The Eagle sincerely wishes the Republicans would nominate Roosevelt for a third term, for it believes Bryan could beat him, and the glory of such a victory is worth fighting for.

China has about nine times as many people as Japan, yet Japan spits in China's face with impunity. In China the people are divided into factions and honest public service is almost unknown; in Japan the people are united and patriotic.

The cotton bears are trying to scare the farmers who are yet holding their cotton with the cry of eight cent cotton next fall. If cotton sells for eight cents next fall it will be the fault of the farmers. If they make a big crop on the chattel mortgage plan it probably will sell for that or maybe less.

Union meetings are always productive of good. When all the different denominations in any community lay aside their church work to work together for the cause of morality and religion no earthly power can prevent a grand forward movement for the cause of the Master.—*Ft. Worth Star*.

The whole country is talking about a mountain of petrified fish near Alpine. It is another nature fake. There are fossil remains of fish in the cretaceous and silurian limestone of that region, just as there are in many other places. These limestone, like all other stratified rocks, were formed under water and have been upheaved.

The president's proposition to extend the time of re-enlistment for the negro soldiers who shot up Brownsville a year ago has brought about some new complications. This action is universally understood as an effort by the administration to reconcile the negro voters to Tadd's candidacy and the friends of other Republican candidates are not likely to support it enthusiastically. The Democrats will oppose it solidly.

NEWS NOTES OF NEIGHBORS. The old Cox hotel at Huntsville was destroyed by fire Friday morning.

Val Hancock was beaten and robbed of \$15 by a footpad in Mexia Thursday night.

Navasota anglers are talking about taking over Steele's Lake for a fishing pond and pleasure resort.

Caldwell parties are building a new opera house in that town.

The Milam county Lignite company has paid L. C. Grant \$10,000 for a certain interest in a tract of land together with the machinery.

Removal of Restrictions Favored.

Washington, March 21.—The Oklahoma delegation in congress was advised that at a convention of Creek Indians, held at Choctaw, Okla., resolutions were adopted favoring the removal of restrictions put upon alienation of lands of mixed bloods, and asking for the removal by the secretary of the interior of the four Creek delegates and the attorney in Washington who have been opposing the position.

Valuable Bust Stolen.

Rome, March 21.—At Frascati thieves broke into the magnificent villa of Aldobrandini, which dates from the Sixteenth century, and carried off a valuable bust in Corinthian bronze of Pope Clement VIII. The thieves gained access by breaking a window and removed the bust, which weighs 500 pounds, from its position in the central hall.

Ship Subsidy Bill Passes.

Washington, March 21.—Nearly the entire session of the senate Friday was consumed by the consideration and final vote on the ship subsidy bill, which was passed without a division of the senate being called for. A bill was also passed increasing the salaries of the men employed in the life saving service.

Train Robbers Escape.

Helena, Mont., March 21.—In a jail delivery here McDonald and Hauser, alleged Great Northern railway train robbers, escaped.

Boiler Blowup Causes Fatality.

Folkston, Ga., March 21.—By the explosion of a boiler G. W. Moore, a capitalist, was killed near here.

SOCIAL AND CLUB WATTERS.

The Bachelorettes Club held its first meeting of the club year at the home with Miss Mary Wilcox at the home of her mother, Mrs. Kate Wilcox. Beautiful wild flowers and fern were used to great advantage in decorating, which sent a sweet perfume through the house. Tables dotted the rooms, and when the guests arrived they found everything in readiness for several games of five hundred." At the close of the last game Miss Laura Dunlap was found to be the victor, and was presented an Irish point lace handkerchief. A dainty course of cream and cake was served. The next meeting of the club will be with Miss Mabel Zimmerman.

The Week-End Club held a meeting Friday afternoon at three-thirty with Mrs. C. M. Betheny, who proved to be a most thoughtful and hospitable hostess. The reception rooms seemed to have been transformed into a flower garden as every mantel, table and cabinet was banked with roses, as was every corner and nook, while potted flowers were placed about the rooms. Four tables accommodated the guests who played several games of forty-two, which was very interesting and entertaining. A pretty plate of refreshments were passed to each guest and contained a pretty Mareschal rose, for a souvenir.

The members of the Bachelor Girls' Club assembled at the hospitable and beautiful home of Judge and Mrs. A. G. Board on Wednesday afternoon for a meeting with Miss Lucy Board, who saw that each and every one had a good time. Dainty score cards were passed and five hundred and forty-two were played. The rooms were sweet and fresh with spring flowers and with environments like these a bevy of beautiful girls daintily dressed, could not fail to have a delightful afternoon. In a cut for the souvenir Miss Grace Norrell of Houston was victorious, and was presented a dainty handkerchief. Cream and cake were served. The club hostess for next week will be Miss Hettie Smith—at three-thirty instead of three

The Elks were showered with compliments yesterday on their fine minstrel performance, which netted something like two hundred dollars for the Dallas national convention of Elks in July. It is probable that members of the local lodge who attend will go in a special car appropriately decorated. The success of this and other local entertainments recently has occasioned some comment on the splendid way-in which Bryan people patronize home affairs, and the no uncertain way in which they have begun to sit down on cheap and trashy shows barm-storming around the country. This shows a healthful condition of public sentiment, and a just local pride in the recognized accomplishments of our people.

T. M. Warburton and family have moved from the east side to Mrs. Nelson Ballard's cottage on the west side.

A good game of basket ball was enjoyed on the Texas Woman's College campus yesterday morning by the young ladies' team of that institution and the young ladies of the Bryan High School. The contest was close and decidedly interesting, resulting in a victory for the College girls by a score of 25 to 20. This healthful exuberant sport is one of the most popular of school and College games, and is unobjectionable from any standpoint.

The Bryan Roller Rink closed for the season last night with a brilliant program and a very large crowd present, in attendance upon the Daughters of the Confederacy benefit. Excellent music was supplied by the Bohemian Club band, the evening was cool and the skating splendid. Diversion was afforded by a mile skating race, and a basket ball game between two Allen Academy teams.

Messrs. Vick and Ahlers, the gentlemanly proprietors of the Rink, have during the past year added to the list of friends they had made the first season, and enjoy the esteem and confidence of all who know them. It is gratifying to know that they will reopen the Rink next season and be able to provide a better list of amusements than ever before. They will patronize indoor sports more than ever and will equip the Rink specially for that purpose. A nice sum was realized last night for the U. D. C. fund.

FIFTEEN ADDITIONS AT HEARNE.

Dr. Geo. B. Butler was delayed in his arrival from Hearne until yesterday afternoon. The union revival meeting he has been conducting closed Friday night. There were fifteen additions to the church.

Buffalo, N. Y., March 21.—Oliver Stevens Garretson, a mining expert, died here.

SHOT AT HIS FRONT DOOR

Hearing Shouts, Harlan Hedges Arose and Fired His Gun, a Bullet From a Volley Entering His Body Just as His Wife Reached Him.

Carlisle, Ky., March 21.—A band of night riders early Saturday morning shot and killed Harlan Hedges, a prominent farmer, seven miles northwest of this place. This is the first murder by night riders in the "blue grass" region of Kentucky.

Hedges was awakened by shots before 2 o'clock. Apprehending trouble, he went to the front door with a shotgun and fired once. The night riders replied with a volley, which killed Hedges just as his wife reached his side. The masked men then rode away rapidly and did not attempt to set fire to Hedges' house or barn.

Hedges was in independent tobacco farmer and widely known over the country.

HARDWICK AND MANN.

One Denounces the President, the Other Is His Defender.

Washington, March 21.—More criticism of President Roosevelt was indulged in by the house of representatives Friday, when he was roundly denounced by Mr. Hardwick of Georgia for failing to send to congress all information regarding corporations which had come into his possession. The president, however, found a ready and vigorous defender in Mr. Mann of Illinois, who asserted that the president had acted in the utmost good faith in sending to congress all the information that had come to him.

The discussion arose over a resolution by Mr. Hardwick to require the president to supply the house with all data so far obtained by the bureau of corporations. The resolution was tabled—148 to 115.

The fortifications appropriation bill was taken up, and in the course of debate upon it Mr. Bartlett of Georgia refuted the claims of the Republicans to the credit for authorship of the railroad rate or Sherman anti-trust laws. The bill was sidetracked for general debate.

HUMMELL SAILS FOR EUROPE.

New York, March 21.—Abraham S. Hummell, the lawyer, who was released from the penitentiary after serving ten months for alleged conspiracy in connection with the Dodge-Morse divorce case, sailed for Europe Saturday on the Lusitania.

NEXT TO NEBOGATOFF.

General Stoessel's Transfer to the Fortress Was Not Expected.

St. Petersburg, March 21.—Lieutenant General Stoessel, who Friday began to serve ten years in prison for alleged cowardice and treason in surrendering Port Arthur to the Japanese, occupies a room in the fortress of St. Peter and St. Paul adjoining that of Rear Admiral Nebogatoff, who is serving like sentence for surrender to the Japanese in the Sea of Japan.

The general's transfer to the fortress was unexpected. He persisted until the very last in hoping that the emperor would pardon him.
